SnowDog

The coolest machine for ice fishing, snow sports, hunting and just having fun

The further you go the better the catch

SnowDog is an amazing new machine invented to become your best off-road "Buddy", carrying heavy loads over long distances on snow, ice, and wild terrain. It is a radically different alternative to the snowmobile tailored towards the hunter, trapper or fisherman who wants an affordable, compact and highly versatile snow machine. You can comfortably sit in a sled with all your stuff and ride wherever you want, or use it to go through a forest where a large vehicle won't pass. It is unbelievable how many tasks it can do. Fishing and hunting will become more productive and enjoyable. With a friend like SnowDog, even hard work can be turned into a fun adventure.

Advantages:

- ▶ It's compact: fits in the trunk of an SUV or a pickup truck
- ▶ It's safe: max speed is limited to 20 miles/h
- ▶ It's affordable: 1/3 the price of a snowmobile
- ▶ It's agile: goes where a man, ATV or snowmobile would not pass
- ▶ It's powerful: 7, 10, or 13 hp, hauls up to 650 lb (350 kg) on snow
- ▶ Use all year round: goes through deep snow, ice, prairie or forest
- ▶ It's reliable: 2-year warranty
- ▶ Economical: fuel consumption less than 0.5 gal per hour (5 liters for 100 km)
- ▶ Needs no registration¹, license, not a subject to vehicle taxes

¹ DNR registration may be required in some states.

Howard Carstensen, Power Equipment Company, Cortland, IL

"The SnowDog has caused more excitement with our dealers and their customers than any product we've had in my 30 years in the power equipment industry. It is a new product category in a market that sees very few new ideas. At 1/3rd the price of a snowmobile, it will go through deep snow, ice, marsh, and prairie or forest. No need for a trailer because the SnowDog fits in the back of an SUV. It is safe, simple to operate, easy to maintain and fun to ride. The SnowDog appeals to ice fishermen, hunters, campers, cabin owners and nature lovers."

Tech characteristics

Model	Engine	Drive Wheel	Length/Width/Height, inch	Track width, inch	Weight, lb
Compact B7ZE	B&S 7 hp	CVT	49×24×31	20	240

Standard B10ZE	B&S 10 hp	CVT	58×24×31	20	275
Standard B13ME	B&S 13 hp	CVT	58×24×31	20	295
Standard B13MER (w/reverse)	B&S 13 hp	CVT	58×24×31	20	305

Model range

SnowDog Compact conquers forest trails and snowy landscapes. With dimensions of 49.21×21.65×30.71 inches, it can be easily transported in a car's trunk! Equipped with 7 hp or 10 hp Briggs&Stratton engine and CVT it can haul sleds with weight up to 300 lb². SnowDog Compact can easily surmount ice tracks, mild snow and harsh landscapes. Standard equipment includes LED light, disk brakes and convenient engine cover.

² On dry ground. Much more on snow and ice.
³ 330 lbs on dry ground.

SnowDog Standard is a reliable companion designed to take you long distances in deep snow pulling loads of up to 650 lbs³. With its longer track and frame, Standard models offer you improved off-road performance and more cargo space. It comes equipped with powerful 10 hp or 13 hp Briggs&Stratton engine and a CVT. SnowDog Standard can overcome ice tracks, deep snow and harsh landscapes. Standard equipment includes LED light, electric starter, disk brakes and convenient engine cover.
